

Plants 9.2

Planting the seeds of fortune

www.CrosswordWeaver.com

ACROSS

- 5 – A close-growing, well-knit, usually fine-leaved growth of a grass, mixture or grasses, or other plant species, which is best maintained by mowing
- 10 – Plants living one year or less. During this time the plant grows, flowers, produces seeds, and dies.
- 12 – The specialization of field-crop production and soil management.
- 14 – Wood that has been mechanically or chemically changed.
- 17 – Any grass grown for its edible grain. The major cereals are wheat, corn, barley, rye, sorghum, and oats.
- 19 – The cultivation of plants for their flowers.
- 21 – A marketing management philosophy
- 23 – A crop that has been preserved in moist, succulent condition by partial fermentation in a tight container
- 24 – A plant that lives for more than two years.

DOWN

- 1 – A written, detailed marketing outline
- 2 – To cut, reap, pick, or gather any crop or product of value, as grain, fruit, or vegetables.
- 3 – place where plants, shrubs, and trees are grown
- 4 – The planting, tending, harvesting, and improving of plants.
- 6 – Those plants or parts of plants that are used for feed before maturing or developing seeds
- 7 – To beautify terrain as with plantings of trees, shrubs, and flowering herbs
- 8 – Feed plants/crops grown primarily for their seeds. For example, corn, wheat, oats, or soybeans.
- 9 – Any leafy plant material which has been cut and dried principally for livestock feeding.
- 11 – The sciences and managing natural resources on lands designated as forests.
- 13 – A transportable resource product with commercial value; all resource products that are articles of commerce.
- 15 – A substance used to control insect, plant, or animal pests.
- 16 – A plant grown for the color and shape of its foliage
- 18 – The seed of the cereal crops.
- 20 – A flower that has been harvested by cutting it off with the stem attached.
- 22 – Any product of the soil. In a narrow sense, the product of a harvest obtained by labor, as distinguished from natural production or wild growth.
