- Provides nutrients for fertilizers.
- Stream and groundwater contamination.
- Unpleasant for public.

Meat Consumption and Animal By-Products.

- Quality source of protein.
- Naturally occurring fibers and furs.
- Amount of bio-resources used to produce.
- Efficiency of fur production.

Slaughter Practices.

- Efficiency to meet consumer demand.
- Downer animals during transport.
- Harvesting methods.

ASA Reflection Page

List 5 key points that are important to remember from this presentation.

- 1.
- 2.
- 3.
- 4.
- 5.

List 3 ideas or concepts that this new information has in common with previous things learned.

- 1.
- 2.
- 3.

List questions or ideas that remain unclear about the information presented that should be asked for clarity at the appropriate time.
