

# Roland-Story Meteorology Class

## Chapter 7 – Presentation Assignment -- Air Circulation

Name \_\_\_\_\_

\_\_\_\_\_ points earned  
20 points possible

In this assignment, each of you will be creating an electronic presentation that will be 13 slides in length. The opening slide is the *introduction slide*, and the other 12 (informational slides) will be for each of the following: Macroscale winds, mesoscale winds, dust devils, trade winds, land and seas breezes, mountain and valley breezes, Chinook winds, katabatic winds, Santa Ana winds, monsoons, the Westerlies, and global winds and ocean currents.

The informational slides (#2 through #13) will include: a title on the slide, a picture depicting the wind and at least 3 pieces of information (from the text book) for each type of wind – these will be listed as bullets.

### Grading:

Criteria	4	3	2	1
Content on slides	At least 3 and from book	At least 3, but not all from book	Less than 3, from book	Less than 3 and not from book
Length of presentation	Title slide and all informational slides fully completed.	Title slide and 8 to 10 informational slides fully completed.	Title slide done, but only 5 to 7 informational slides fully completed.	Title slide done, but less than 5 informational slides fully completed.
Formatted and corrected for spelling and grammar	Formatted correctly, easy to read/comprehend, no spelling or grammar errors	Formatted correctly, easy to read/comprehend, 3 or less spelling or grammar errors	Formatted correctly, easy to read/comprehend, 3 to 5 spelling or grammar errors	Formatted wrong or more than 5 spelling/grammar errors.
Accuracy of information	90% or more of the information is correct	80 to 90% of information is correct	70 to 80% of the information is correct.	Less than 60% of the information is correct
Use of time	Submitted on time	Submitted 1 day or less late	Submitted 1 to 2 days late	Submitted 2 or more days late
